## Professional Summary

Software Engineer with hands-on experience at a Y Combinator-backed AI startup and a background in Information Systems. Builds full-stack applications using JavaScript, React, Node.js, Express, PostgreSQL, and Supabase.A problem solver who uses analytical thinking to debug software and understand user behavior.

## Technologies

**Languages:** JavaScript (ES6+), Typescript, Python, SQL, HTML, CSS
**Frameworks & Libraries:** React, Node.js, Express
**Databases:** PostgreSQL, Supabase
**Tools:** Git, GitHub, VS Code, PostHog, Trigger.dev

## Experience

**Junior Software Engineer, The Hog – San Francisco, California, Jan 2026 - March 2026**

- Worked on an AI product using JavaScript, SQL, Supabase, Trigger.dev, and GitHub.
- Analyzed user behavior with PostHog to identify usage trends across AI agents and product features.
- Performed manual QA testing to identify bugs and improve product reliability.
- Worked collaboratively within an evolving startup environment where product usage, requirements, and technical priorities changed quickly.

**Digital Marketing Specialist, Maxxsecure Insurances Inc. - Makati, Metro Manila , Jan 2020 - Dec 2024**

- Oversaw and implemented digital tools for marketing operations, including website updates and online campaigns.
- Integrated and managed Google Ads campaigns, analyzing ad performance data to optimize spend and improve conversion rates.
- Produced sales and client-facing materials, combining analytical and communication skills to support business development goals.

## Projects

**Gorilya - Fitness Tracker** | *HTML, CSS, JavaScript, React, Node.js, Express, Supabase*
*gorilya.app ↗*

- Built a full-stack workout tracker for creating programs, logging workouts, and tracking sets, reps, and weights.
- Implemented username-based workout assignment and persistent workout data with Supabase.
- Added progressive overload tracking to reference previous session weights.

**WealthPilot** |React, JavaScript, Node.js, Express, PostgreSQL, Supabase, Recharts, CSS
wealthpilot-pilot-psi.vercel.app ↗

- Built a full-stack personal finance dashboard for tracking income, expenses, and financial goals.
- Developed a REST API with CRUD operations and PostgreSQL data modeling using Supabase.
- Added interactive financial visualizations with Recharts and deployed the application to Vercel and Render.

**Maxxsecure Insurances Website** |Framer and CSS
maxxsecure.ph ↗

- Customized a Framer website to match the client's brand, including layout, styling, and color scheme.
- Wrote and organized site content for services, FAQs, and testimonials.

## Education

**Bachelor of Science in Information Systems**, University of Santo Tomas, 2012- 2017
**Full Stack JavaScript Development Bootcamp,** Zuitt Coding Bootcamp, July 2021 - Sept 2021

## Awards

**Headliners of Tomorrow Champion** – Toastmasters International, District 75 (2018)
Top rookie speaker across Toastmasters clubs in Metro Manila. Demonstrates structured communication and public speaking under pressure.
